

November 13, 2008

Dear Professor Khanna,

Congratulations on your collaborative efforts with the University of Puerto Rico School of Medicine to utilize cutting-edge technology to broadcast surgeries to multiple locations in the United States, paving the way for another major advance in "Telemedicine".

If we are to stimulate the imaginations of the next generation of researchers, we need to connect and encourage students to look beyond their campus, and to seek collaborations that will benefit research and those who are often hampered by geography. It is an honor to recognize your contributions to the state's efforts to establish world class excellence in teaching and research throughout New York. As one of the core recommendations of the New York State Commission on Higher Education, your efforts exemplify the excellence we seek to achieve.

NYSTAR applauds your accomplishments and wishes you continued success.

Sincerely,

A handwritten signature in blue ink, appearing to read "Edward Reinfurt". The signature is fluid and cursive, with a large initial "E" and "R".

Edward Reinfurt
